---

A Tennessee contractor's license is required for projects \$25,000 and up. A Copy of the contractor's insurance and state contractor's license is required when permit is issued.

It is the responsibility of the owner/contractor to call for all necessary inspections and see that work has passed inspection prior to the work being covered up.

All requests for required inspections should be made at least 24 hours in advance.

Refer to our website for a list of required inspections.
